Universal BioSys

Best security through nature……

Biometric enabled third-party authentication system

BioSys Team :
- Ravindra De Silva
- Dilum Bandara
- Dasun Weerasinghe
Problem

- Complexity of integration within an enterprise level network
  - Biometric technology dependence
  - Vendor dependence
  - Platform dependence

- High cost associated in using similar types of devices

- Requirement for in-depth security
Solution

- Integrate different biometric technologies
- Platform & vendor independence
- Simple application development
- Administrative advantage
- In-depth-Security
- Minimize Total Cost of Ownership (TCO)
Unique Features
Device-Hierarchy
Unique Features
Device-Hierarchy cont..

Universal BioSys - Best security through nature
Unique Features

many-to-many Mapping

- 6 computer $\rightarrow$ 6 devices

Universal BioSys - Best security through nature
Unique Features

*many-to-many* Mapping cont..

- 6 computers → only 1 device
